

Instructions for the NTU Health Exam for Incoming Exchange / Visiting Students

In order to understand the general health condition of incoming students, and to meet the regulations of National Taiwan University, all students should receive a health exam by a qualified physician. The registration procedure is not complete if the new student does not have her/his health exam form completed.

For convenience, you may take the health exam abroad, as long as all items are completed and the examination forms include the doctor's signature and a stamp from the hospital or clinic (for certification), and dated **within three months** of your planned arrival at NTU.

Please print the "NTU Incoming Exchange / Visiting Students Health Exam Form" and the "Medical Examination Requirements for Students Applying for Short-Term Study in Taiwan (Form C)" and bring it to a hospital/clinic. The required items are included in these two forms. Most importantly, please remember to bring the completed exam form with you when registering at NTU.

※ Special instructions

1. Please inform the doctor if you are pregnant. You are allowed to skip the CXR exam if you are pregnant.
2. For women, please avoid completing the urine test during menstruation.
3. For the laboratory tests, fasting for at least 8 hours is required.
4. A physical exam by a physician and a Chest X-ray exam are mandatory items.
5. The Form C lists the medical examination requirements for students applying for short-term study in Taiwan. Students must provide information such as, the name of the vaccine, the date of the immunization, the name of the hospital or clinic, and the signature of the physician administering the vaccine, to the physician who fills in this form. If the student does not have measles or mumps IgG antibodies, at least one dose of MMR immunization is indicated to meet the medical examination requirements.
