

THE ENERGY TO CHANGE THE WORLD

Building on over 130 years of experience, we are leading a new era of energy - electrifying the world while simultaneously working to decarbonize it.

GE VERNOVA

Our Focus

GE Vernova is accelerating the path to more reliable, affordable, and sustainable energy, while helping our customers power economies and deliver the electricity that is vital to health, safety, security, and improved quality of life.

Why you should partner with us

With a relentless passion for innovation and a diverse portfolio of leading technologies, GE Vernova is continuing to electrify the world while simultaneously decarbonizing it. We will help reduce the carbon-intensity of the world's power systems by reducing the CO₂ per kWh produced.

Our mission is clear

Addressing the climate crisis is an urgent global priority and we take our responsibilities seriously. That is our singular mission at GE Vernova: continuing to electrify the world while simultaneously working to help decarbonize it.

If we want our energy future to be different... we must be different.

Our mission is embedded in our name. We retain our treasured legacy, "GE," in our name as enduring and hard-earned badge of quality and inequity. "Ver" / "verde" signal Earth's verdant and lush ecosystems. "Nova," from Latin "novus," nod to a new, innovative era of lower carbon energy that GE Vernova will help deliver.

Together, we have The Energy to Change the World

Career Opportunity at GE Vernova

WE ARE HIRING

Taiwan is hiring Commercial Leadership Program 2024

- It is a two-year program with four rotations, each six months in duration.
- You will be part of the GE Vernova team, focusing rotations in our Gas Power business. Assignments will vary but will relate to commercial operations, pricing, marketing, product sales, or other sales support functions.
- You are expected to be active outside of their main roles by taking part in or leading various small projects, committees, and other activities. In this role you are expected to leverage your problem-solving and people skills to bring solutions both internally and externally.
- Suitable candidate will be onboarded on July 2024 or earlier.
